Barbeque at the Crowne Plaza, Caversham

The BBQ will be available between 4 and 5 pm, so please plan your arrival as close as possible to 4 pm.

The Route

The Thames Path is very well signed along the route, and is walkable without a map. At all decision points you should follow the Thames Path sign.

Wallingford – Caversham route:

Take care where the path leaves the river, near Moulsoford (between Wallingford and Goring), a few kms beyond Goring, and just beyond Mapledurham Lock at Purley (between Pangbourne and Caversham). The route is flat apart from two sections; a few kms beyond Goring there is a steady climb through trees, followed by a sharp down and up section, and beyond Mapledurham Lock at Purley there is a climb through a housing estate away from the river. There are no stiles along the route.

Marlow – Caversham route:

The route is relatively flat throughout with no stiles. The path leaves the river about 3 km after Hurley, returning to the river via the road with the Flower Potpub on your left.

Having crossed the bridge at Henley, the route leaves the river again after about 2.5 km, on the approach to Shiplake. Details of this part of the route are given later.

Finally, there is well signed Thames Path diversion just before Reading Bridge. OS Explorer Map 171 covers the whole of the Wallingford leg, and the Marlow leg beyond Hurley.

Parking and Public Transport

Parking is available at the Crowne Plaza Hotel Car Park throughout the day, for those who want to leave a car early and walk back to it, or for pick-ups at the end of the walk.

Please note that a 4-digit code is required to exit the car park, which is available from the hotel reception.

For those wishing to use public transport before or after the walk, the official Thames Path website has a useful travel planning section,

<http://www.nationaltrail.co.uk/thamespath/public-transport> .

Food and Drink

Team Leaders are responsible for ensuring that their team takes on regular food and drink to keep up energy levels and avoid dehydration. There are drinking water points at Wallingford Cattle Market Car Park, Goring-on-Thames Car Park, Pangbourne Recreation Ground, and Mapledurham Lock (Wallingford leg), and at Temple Lock, Hurley Lock and Shiplake Lock (Marlow leg).

Emergencies

Team Leaders should have their own contingency measures in place during the walk.

They must carry a mobile phone and should ring the emergency services if considered necessary. Otherwise a support vehicle will be available for call-up (Ring 07824332001).

First Aiders will be on station at the Crowne Plaza between 3pm and 5pm.

Training

It is recommended that those who are not regular long distance walkers, and who intend to start from Goring/Henley, and especially Wallingford/Marlow, should do some training before the event, although this is ultimately down to the judgement of the individual or team leaders.

Walking Speed

Depending on fitness levels, and what kind of experience you are looking for, your walking speed is likely to be in the range 2.5 to 3.5 mph. 3 mph is a good average walking speed for this kind of terrain for a reasonably fit person.
